

Eco-Feminists

I learnt a new word at CSW this year, eco-feminist. It would seem that these will be the new high priestesses of the new greenie religion. They will also be after all the green funding needed to “save the planet”. However, I feel God is well in charge of this world and works all things out according to his wise counsel. “The One enthroned in heaven laughs; the Lord scoffs at them”. Ps2:4.

So, we have a **double-barrelled delusion** here. Firstly, they claim a fake climate catastrophe and then claim a fake narrative of male oppression and privilege.

The world has never been in such good shape, and we have experienced the most amazing level of human flourishing in the past 100 years. I remember in the early 1970s when the world was going to be over-populated, and millions were to starve to death. Starvation now only happens with war and drought together. Then we were to have a new ice age, then global warming, now climate catastrophe. None of these doomsday predictions have come true.

Please consider this warning from Deut. 18:22. “ If what a prophet proclaims in the name of the Lord does not take place, that is a message the Lord has not spoken. That prophet has spoken presumptuously. Do not be afraid of him”.

In the final document I read that there is meant to be \$100,000,000 per year spent “solving the climate crisis”. Who would be brave enough to say there is no crisis and not get any of that money? The emperor has no clothes on.
